**August 2019**

### **From the desk of Pastor Mark Hollinger**

I just recently went to Wapakoneta to do some shopping and it was the 50<sup>th</sup> anniversary of the moon landing. It was heartwarming to see the community and indeed the whole country and added affirmations across the globe celebrating this remarkable human achievement of reaching out into space and landing on the moon!

As the events and special programming unfolded I was once again reminded of the dangers of space and the subsequent perils traveling through it and therefore the extraordinary achievement the lunar landing represents. I have always been fascinated by space, our galaxy and the wonders of the universe. About ten years ago I was live streaming "The Universe" which is like 50 episodes regarding all the marvels and complexities of the universe including our solar system and our galaxy, the Milky Way. When Netflix took it off live streaming I ordered the whole DVD series online for my upcoming birthday and so I told Kathy that she got me the universe for my birthday that year.

I marvel at all the chaos and yet order that is found in the planets and stars of the universe. I marvel at the unique survivability of our planet in the midst of a hostile solar system. This, for me, speaks of a divine hand creating and ordering all that is in the universe.

I recently came across an article which had the headline: "As the Moon landing unfolded, Buzz Aldrin took communion. Here's why" Although it primarily focused on Buzz Aldrin and his own thoughts and reflections from his Apollo 11 mission, (he was there with Neil Armstrong for that first moon landing) it also reported on the experiences of all of those who had the opportunity to travel to the moon and back.

Without exception every member of those crews—whether landing on the moon or remaining in the command module had their faith and spiritual journey deepened. The article reflected that it has been a small and select group who has known what it is to stare back at our own blue planet from the Moon, to appreciate that perspective and marvel at the rare and precious jewel that Earth is. For those who had that experience in the '60s and '70s, without exception, it changed them irrevocably.

The article concluded “beyond the intricate planning, the complex equations, the stunning technology required to get to that place, in a moment of sheer wonder and awe, the human tendency to reach for non-material ways to interpret what's going on, is undeniable; to reach for that which is beyond ourselves.

Even though I am anchored on terra firma and have never had the advantage of a 250,000 mile perspective look back of the earth, still, what I know and experience in the wonder of nature and the relationship of the creator moves me to inexpressible gratitude and praise to the Lord, God Almighty. It is no wonder that when Apollo 8, the first mission to orbit the moon, while in that first orbit ever of the moon so moved all three crew members to read in turn Genesis 1:1-10.

*In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters. Genesis 1:1-2*

## Back-to-School Blessing

by the Rev. Marilyn E. Thornton

Bless my paper and my pen.  
 Guide my spirit deep within.  
 Help me think and help me play,  
 This whole school year, day by day.

As I move from class to class,  
 Guide my footsteps; clear my path.  
 Keep my tongue to speak your words.  
 Let your will for me be heard.

In every subject high or low,  
 May God's excellence be shown!  
 Keep me strong to reach the prize,  
 To grow in grace, becoming wise.

Whether far from home or near,  
 May I hold God's precepts dear.  
 To do my best at every task;  
 For this blessing, I do ask.

Help my family be a part  
 As I lift my mind and heart.  
 As I study, work, and pray,  
 Be with them throughout the day.

Of whom much is given, much is required.  
 May learning be your greatest desire!

## Blessing of the Backpacks

**Blessing of the Backpacks

**August 18th**

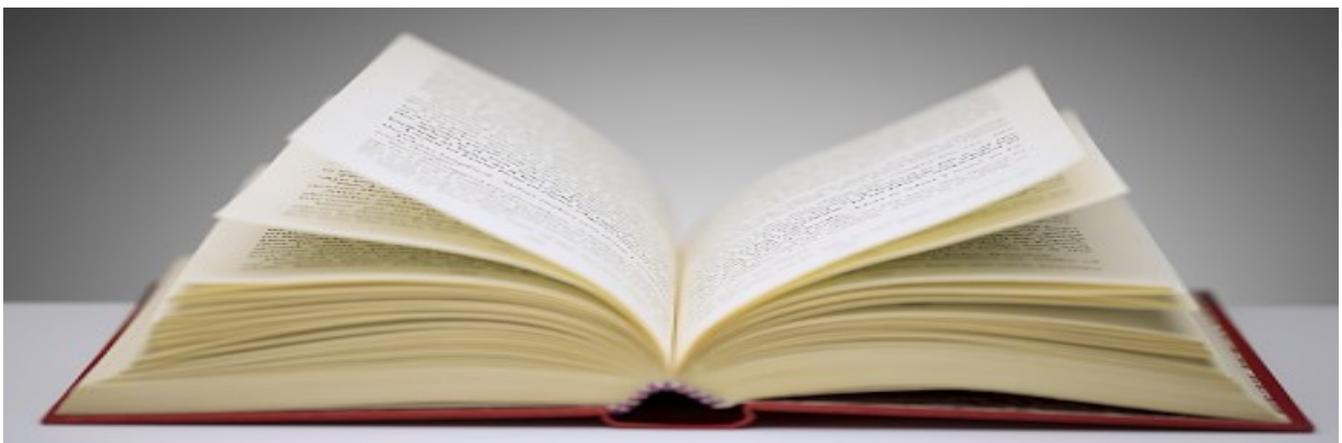

In her book ENJOY YOUR JOURNEY, Joyce Meyer helps you find the treasures hidden in every day! EVERY DAY!!!! Joyce suggests we let God take care of our problems cast your care upon Him and do what He has instructed you to do. It almost sounds too good to be true, but you can actually ENJOY life while God handles all your problems.

THE RED DOOR INN, by Liz Johnson is a story about new beginnings and fresh hope. The setting: Prince Edward Island. Here we meet up with Marie Carrington who is broke, desperate and hoping to find sanctuary while decorating a renovated bed-and-breakfast. Along comes Seth Sloane who just moved 3,000 miles to help restore his uncle's B and B and to forget about the fiancée who broke his heart. These two must work together to get this Inn up and running in just two months! This all makes for interesting reading!

We have several Debbie Macomber books that were given to the library. I know many of you read Debbie, so enjoy!

Have a great August!
